

Aratos Technologies S.A. – Internship Program

Aratos Technologies S.A. offers a unique set of challenging and rewarding Internship Program for University Students, recent University Graduates as well as Career Changers looking to gain valuable real-world experience.

With a solid foundation, based on future trends in the space industry, Aratos Technologies S.A. will strengthen your career prospects and support you in all your future professional endeavors.

We offer a wide range of Internship Opportunities for highly qualified and career-oriented individuals in the following specializations:

- Opportunities within Project Consulting
- Opportunities within Software Engineering
- Opportunities within Sales and Marketing

Internships in Aratos Technologies S.A. typically range from 6 to 12 months. There are exceptions in certain situations.

As an intern, you will get involved in projects and activities that allow you to enrich your professional background, make real contribution and build your network of peers and leaders.

Upon internship completion, each intern will receive a certification proving the professional experience gained during the internship period.

All Internship openings require very good command of the English language, problem-solving capabilities and team working capabilities.

If you are interested in applying for an internship, please submit your CV to internship@aratos.gr until June 1, 2010.
